THE STRENGTH BEHIND RHINO™

Rhino pulling tapes are produced by Milliken & Company, one of the world's largest privately held material manufacturers with over 50 facilities in the U.S. alone. Founded in 1865, Milliken specializes in the development of chemistries and processes that add new functionality and value to a variety of textiles.

Milliken is known for its innovation. Company scientists and engineers have developed more than 38,000 products and registered more than 2,000 patents. But at its core, Milliken is a large-capacity manufacturer skilled at meeting high production demands on tight time lines, making them a superior source of pull tapes for any application.

Responsive, forward thinking and quality minded, Milliken & Company is one of the few companies in the U.S. to be awarded the Malcolm Baldrige National Quality Award, a key indicator of a company's world-class standards, as well as a significant number of international awards. Milliken is also an ISO 9000 certified company, which assures you of product and service reliability.
